- 139** Packing of the graphic components
- 140** Basic colours of components

4SOFT OFFERS ORIGINAL SOLUTIONS FOR YOUR PROJECTS

4SOFT COMPANY

12 years of experience in manufacturing EPDM graphic components.

Offer of more than 2500 prefabricated 2D and 3D graphic components made from EPDM.

Cooperation with more than 160 wet pour installation companies in 32 countries all over the world.

Only high-quality products used.

WE HELP YOU TO CREATE PLAYGROUNDS NICER & FASTER, THAN OTHERS!

KEY BENEFITS

1. FAST

2. EASY

3. EFFECTIVE

4. PERFECT

You can find out more about our products at:
epdm-graphics.com

4SOFT 2D AND 3D GRAPHIC COMPONENTS

The most effective way of creating an interesting EPDM surface.

4soft products can be used on any EPDM wet pour surface.

Our graphics make the playground areas:

- more attractive and fun,
- provide added value,
- minimise the risk of warranty claims.

OUR PRODUCTS ARE MADE FROM HIGH-QUALITY EPDM AND POLYURETHANE BINDER.

SLOW, DIFFICULT, EXPENSIVE, BAD...

TO INSTALL MULTI-COLOURED GRAPHICS ON EPDM WET POUR SURFACES YOU NORMALLY NEED:

- a lot of time to shape the graphics to the form needed;
- to wait for each colour to cure before you can start with the next one;
- to prepare templates;
- to have workers skilled in art on the site;
- more time (more days) to finish the surface.

SLOW SOLUTION

FAST, EASY, EFFECTIVE, PERFECT

HOWEVER, THERE IS ALSO A MORE EFFECTIVE WAY OF CREATING AN INTERESTING WET POUR SURFACE

- + create a more attractive (more competitive) wet pour surface;
- + install all component on the top surface layer easily and quickly in just one day;
- + save labour costs and material;
- + make it without needing workers skilled in art in your installation team;
- + finish the project much more quickly and cheaply.

FAST SOLUTION

2D GRAPHIC COMPONENTS

Choose the right EPDM graphic component & glue it !

BE MUCH FASTER AND MORE EFFECTIVE

Each detail is made from EPDM granules without any additional surface painting.

JUST GLUE IT!

SMART EDGE

Specially shaped, no cutting, with oblique EDGES 45° angle which means perfect adhesion of the EPDM wet pour surface around the graphics as well as stable and durable joins.

SMART EDGE means NO CRACKS inside the EPDM graphic components (we do not use knives or water jet cutting).

ALL IN ONE WORKING DAY GRAPHICS AND SURFACE !!!

WE ARE CONSTANTLY WORKING ON IMPROVEMENTS!

This is a hand-made product not fabricated on a pressing machine. The reason is simple! Prefabricated graphics looks the same as the rest of the EPDM surface.

4SOFT 2D WET POUR GRAPHICS ARE 10 MM THICK.

FOR UV SENSITIVE COLOURS, WE USE ALIPHATIC BINDER.

STABLE AND DURABLE JOINS!

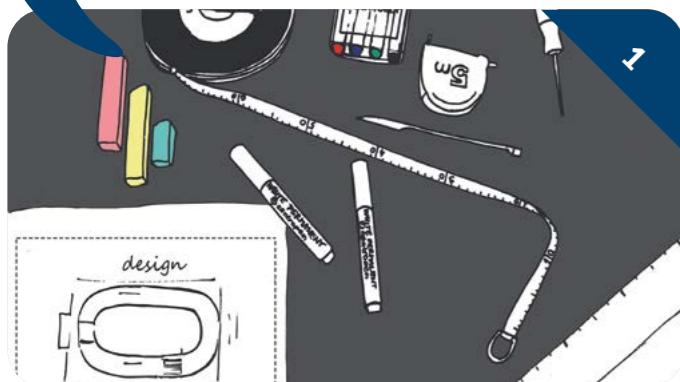

NO CRACKS!
(around components)

INSTALLATION GUIDES

For 2D EPDM graphics.

Just glue the graphic component on to the SBR layer or directly on concrete. Take a look at our simple installation guides.

Tools needed to measure the required graphic and the material for gluing.

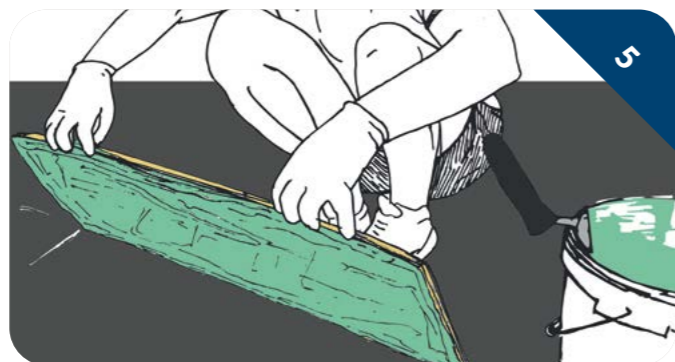

Measure and copy the graphic on a cured SBR layer along with the required design.

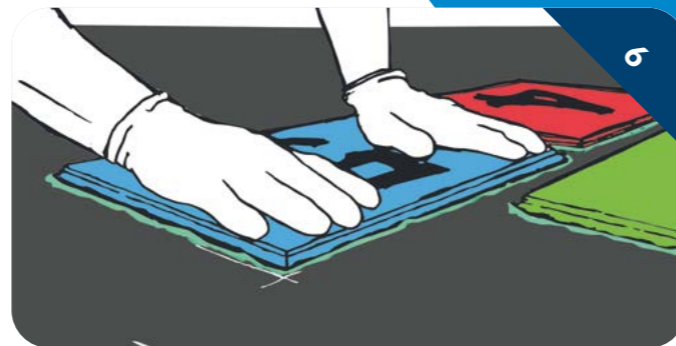

Mix the two-component glue properly. Use standard PU glue for artificial grass. Use the two-component glue for larger patterns or more graphics.

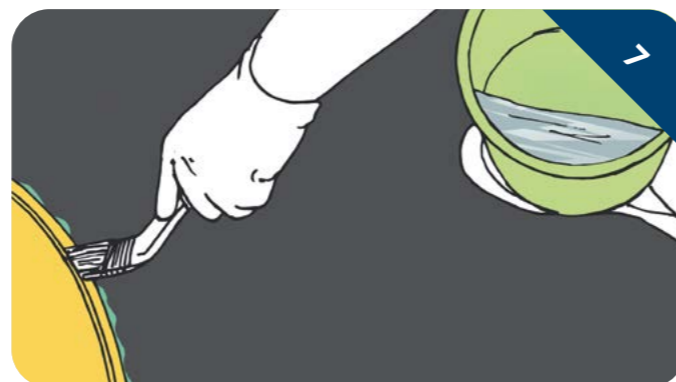

Spread the glue evenly on the underside of your graphic.

Make sure the glue is spread evenly and up to the edges !!!

Position the graphic exactly and press it properly to improve glue distribution.

Apply the thick binder on the outside edges of the component to avoid them separating from the rest of the EPDM on the top layer.

Spread and compress your final EPDM layer properly around the component.

MAKE A SUPERB SURFACE!

CHOOSE THE RIGHT GRAPHIC COMPONENTS & GLUE THEM

There are many ways of using our 2D graphics to transform a dull EPDM surface into an entertaining and educational place.

ALL YOU NEED TO DO IS JUST CHOOSE THE RIGHT GRAPHIC COMPONENTS AND GLUE THEM.

The rest of the surface installation is then very simple.

3D Sea star
K1-02A-09

Order, measure, glue and finish the surface around it. Easy :)

3D GRAPHIC COMPONENTS

Simple and fast installation with a great result!

JUST
GLUE IT!

3D GRAPHIC COMPONENTS

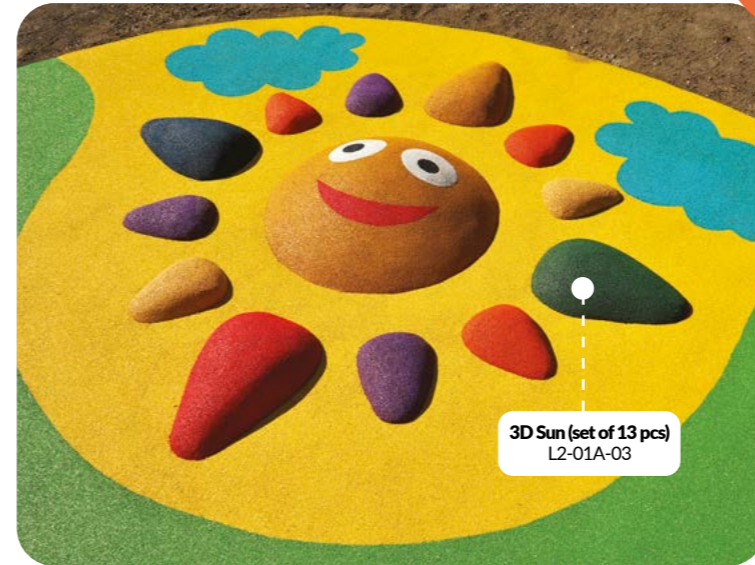

- ATTRACTIVE ELEMENTS
- PERFECT DURABILITY
- SAFE PLAY
- FAST INSTALLATION

Our 3D graphic elements are certified according to EN 1176-1 standards by TÜV authorities.

You can find out more about our products at:
epdm-graphics.com

Play elements in many ways – soft seats or just safe decorations for playgrounds.

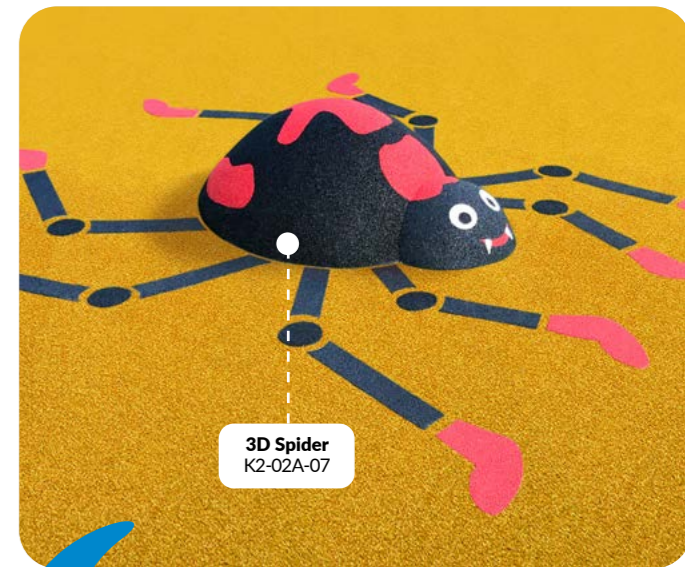

To achieve a great result, combine 3D shapes with standard 2D graphics.

4soft 3D graphics are made only from SBR on the inside and high-quality EPDM on the outside.

Each detail is made from EPDM granules without any additional surface painting.

Children just love them!

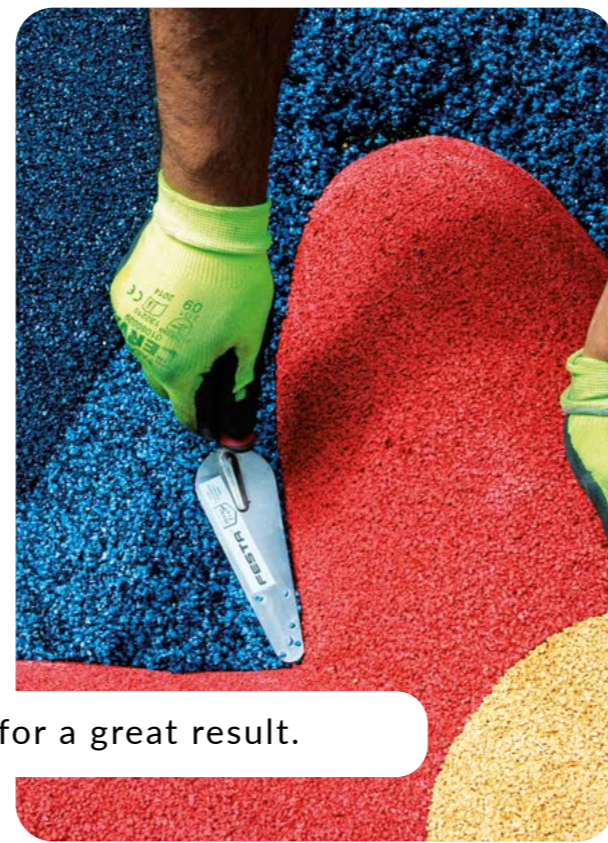

More fun for kids than you think !

DO A FASTER & NEATER JOB!

INSTALLATION:

- just glue it onto the SBR layer;
- weight depends on size - from 10 kg to 180 kg;
- can also be installed on artificial turf, rubber tiles or concrete sub base.

You can find out more about our products at : epdm-graphics.com

Simple and fast installation for a great result.

Copy the graphic on the SBR layer along with the required design.

Apply the thick binder on the outside edges of the 3D component to avoid them separating from the rest of the EPDM on the top layer.

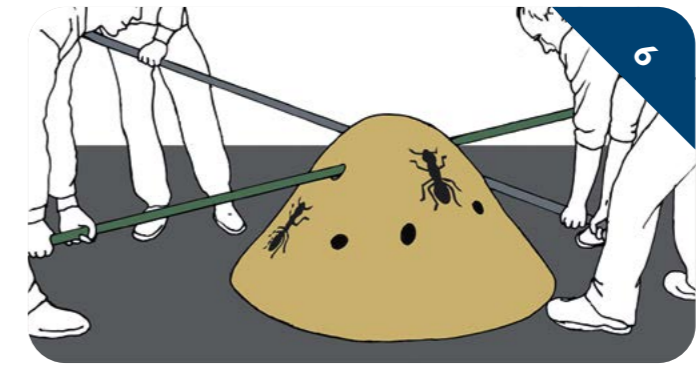

Position one or two components and glue them directly onto the SBR - be careful about the upper side of the component to avoid staining it with the binder!

Screed and compress your final EPDM layer a round your 3D component. Cartridges or tubes. For ex-ample, Proline T44 or Extrem FIX.

Position the 3D component and press it properly to improve glue distribution.

To transport the heavy 3D anthill, use two iron bars and pass them through the holes.

INSTALLATION GUIDES

For 3D EPDM graphics by 4soft.

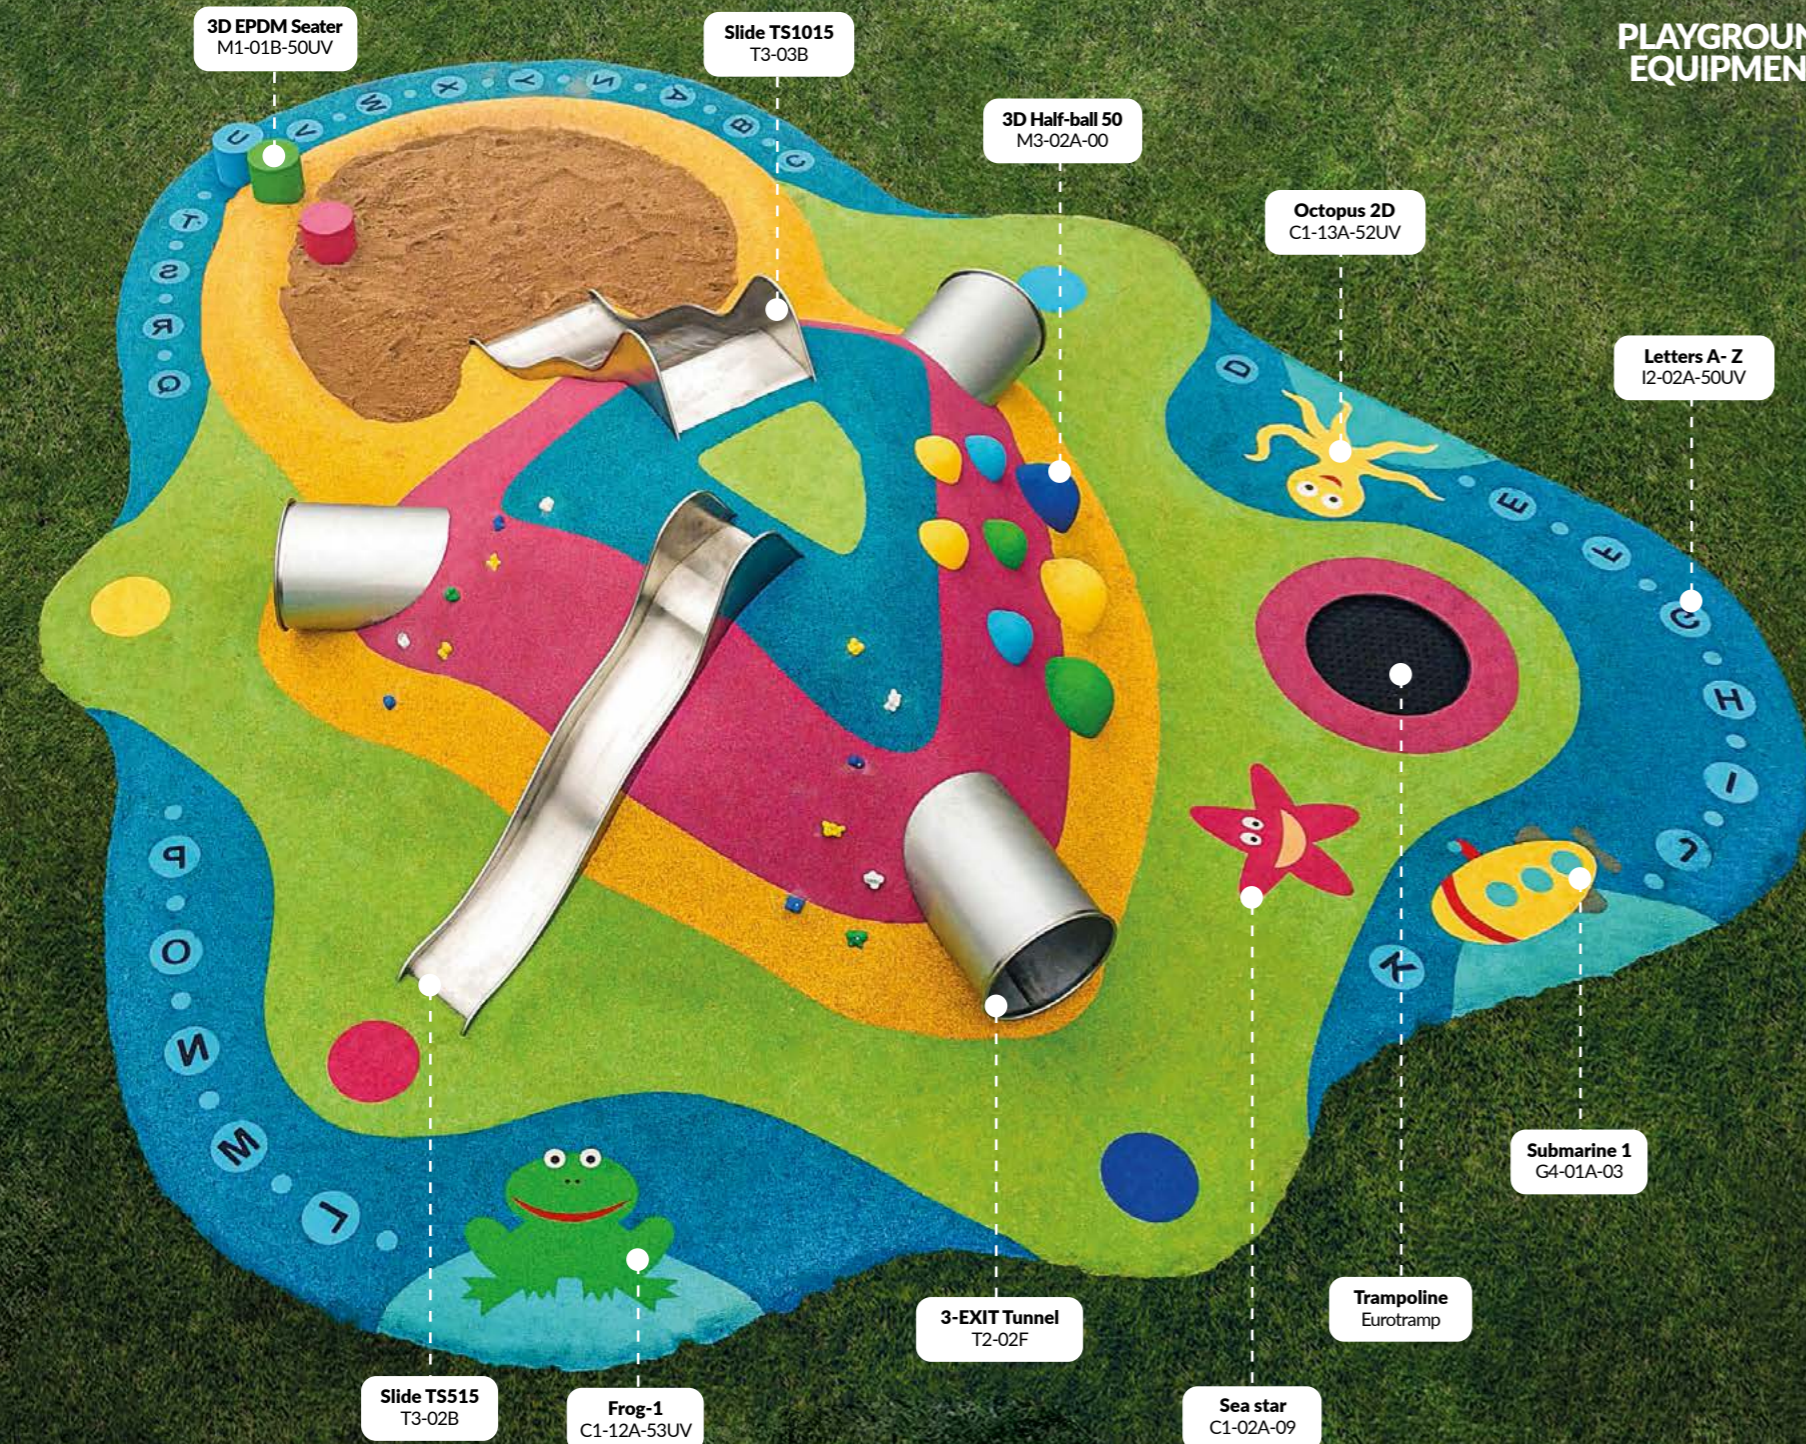

Working with 3d graphics is very easy. Just glue them !

To transport the heavy 3D ladybird or 3D turtle, we install two belts directly on them to make handling easier.

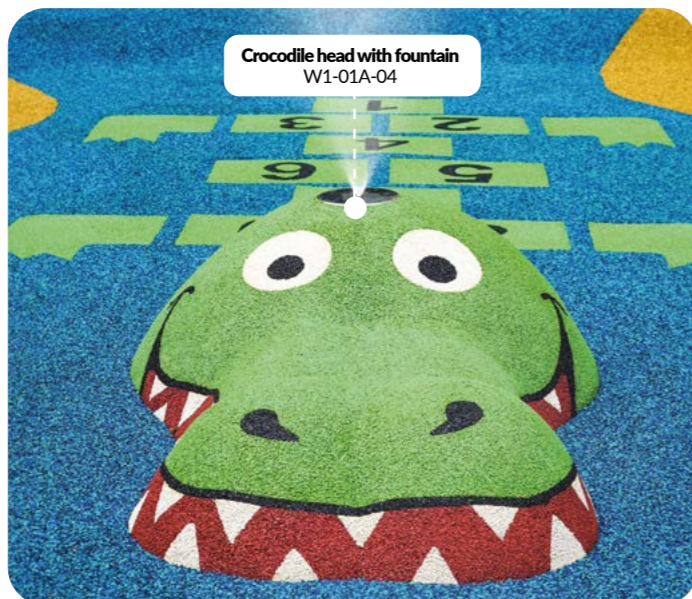

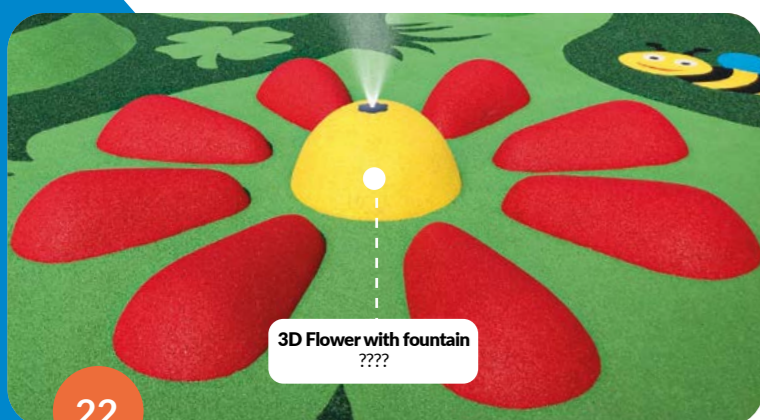

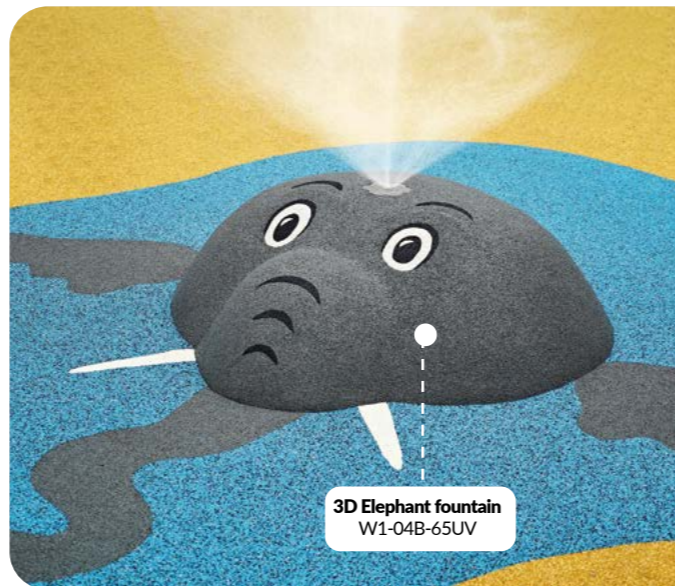

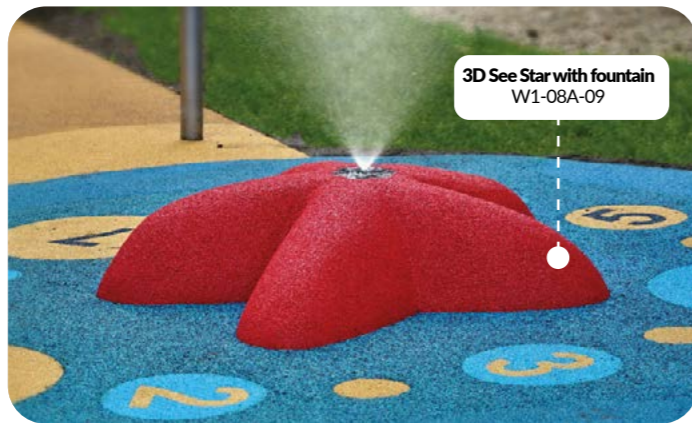

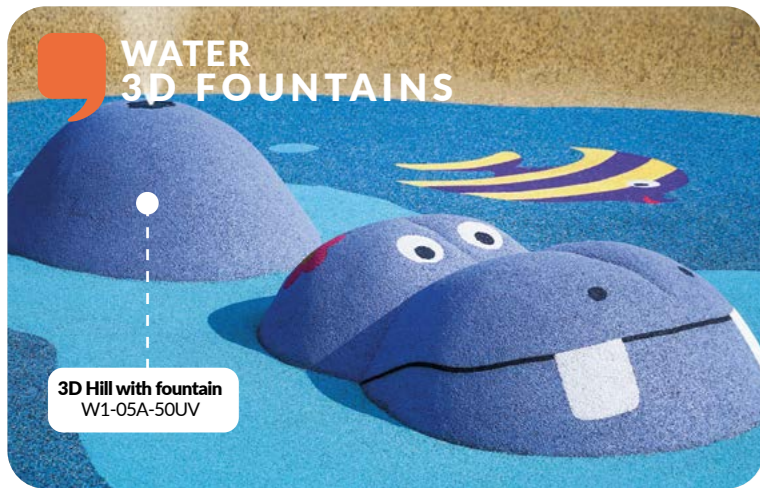

You can use two iron bars to attach the belts to the components. After gluing the 3D objects, the belts can be cut away or just pulled out.

OTHER PLAYGROUND EQUIPMENT

“ Multiply the play potential of your new projects ”

WATER 3D FOUNTAINS

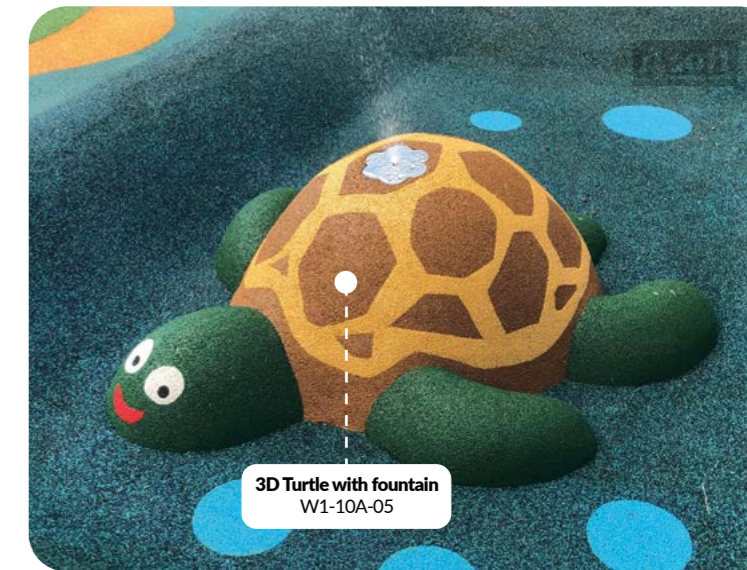

A combination of 3d graphics and splash areas is great in the summer time.

A water nozzle can be installed into any 3D shape according to your requirements.

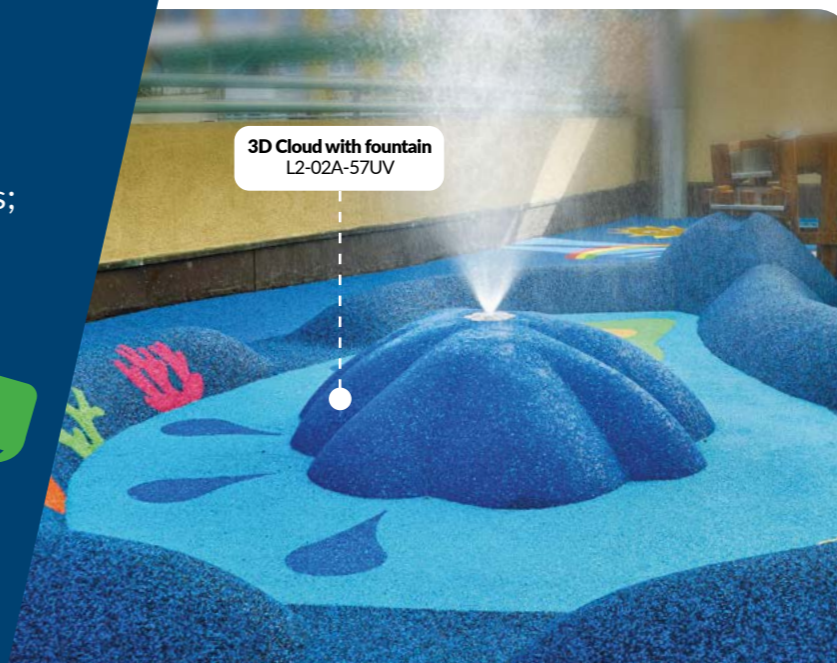

Water fountains can be a part of standard playgrounds.

IDEAL SOLUTION FOR:

- kindergartens;
- schools;
- public areas and parks;
- public playgrounds;
- swimming pools.

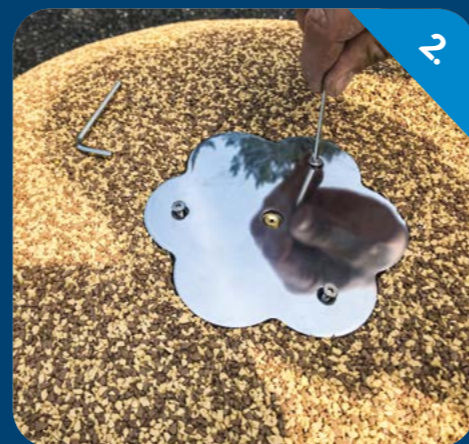

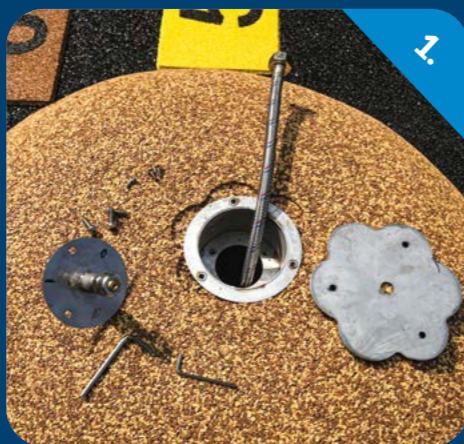

You can find out more about our products at : www.epdm-graphics.com

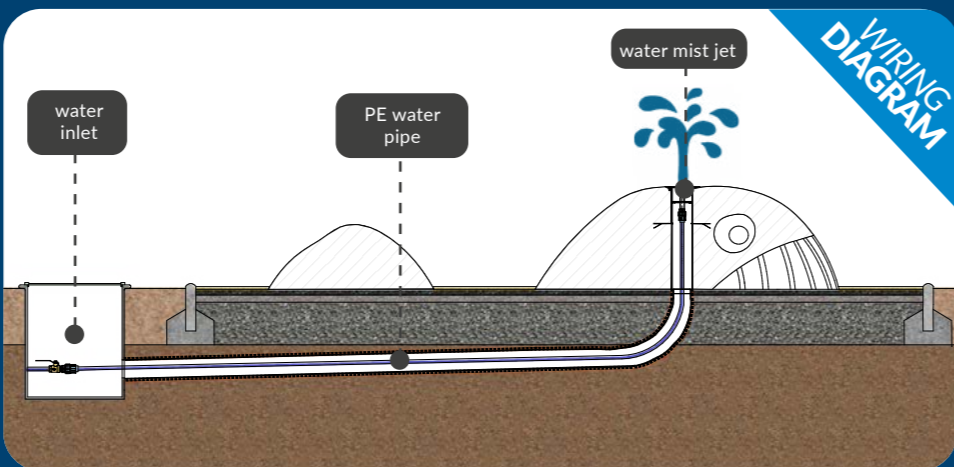

WATER FOUNTAINS TECHNICAL INFORMATION

Easy to connect to the water supply!

ALL YOU NEED IS A STANDARD
WATER GARDEN CONNECTION
WITH NORMAL PRESSURE!

OPERATING THE NOZZLE

There are two options of controlling the opening and closing the water connection to the fountain:

- a standard water valve;
- electric button – possibility to set up the duration of water squirting. It works with a 6V battery.

LOW WATER CONSUMPTION

Water consumption depends on the selected nozzle, from 2.5 l/min to 6 l/min.

One water supply can be connected to more nozzles depending on the flow rate of the water connection.

NO PUMP

All you need is a standard water supply with a pressure of 2-3 bar.

You can find out more about fountains at: www.epdm-graphics.com

GREAT
FUN
FRESH
SAFE

Length 1200 mm
Diameter 510 mm
Height approx. 650 mm.

EXTREMELY DURABLE TUNNELS MADE OF STAINLESS STEEL.

4SOFT MINI TUNNELS

For safe surface areas.

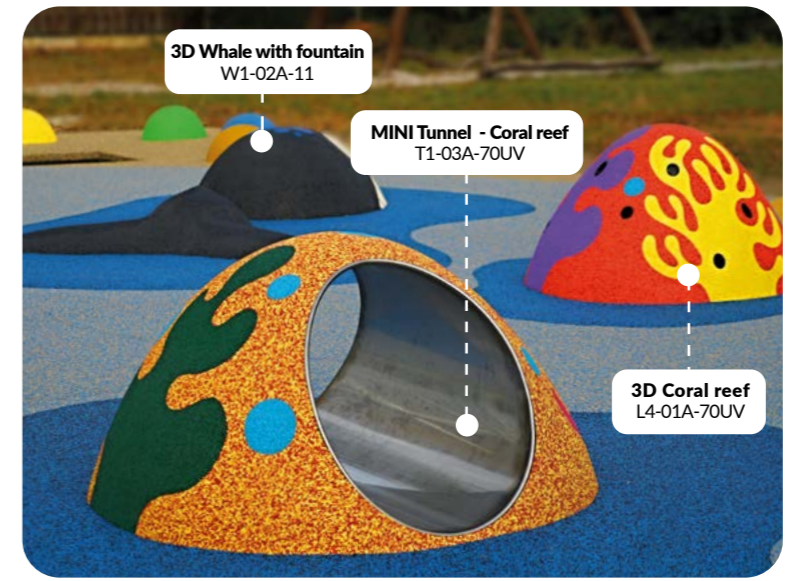

Very popular play equipment with many design variations.

It can be modified according to your request.

Supplied directly with the EPDM surface.

Certified according to EN 1176-1 standards.

LITTLE HILL = LOTS OF FUN!

Simple and fast installation with a great result.
Just Glue It.

DURABLE & SAFE

STANDARD BUILT-IN TUNNELS

Designed to be built into a concrete hill and covered by an EPDM safety surface.

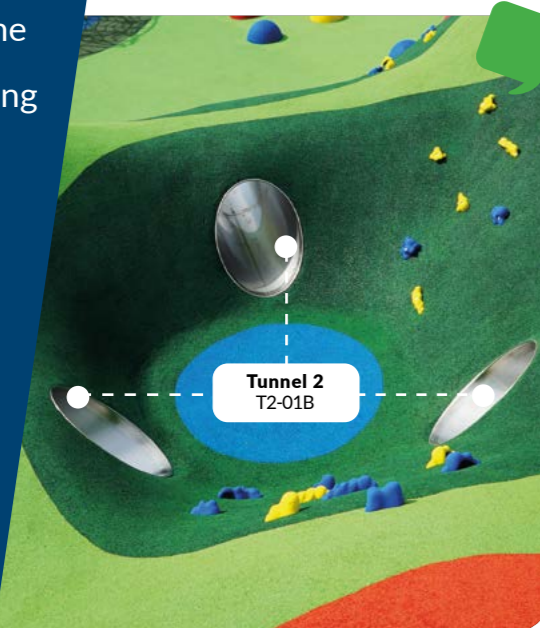

Made from stainless steel.

Perfect when combine with slides and climbing elements.

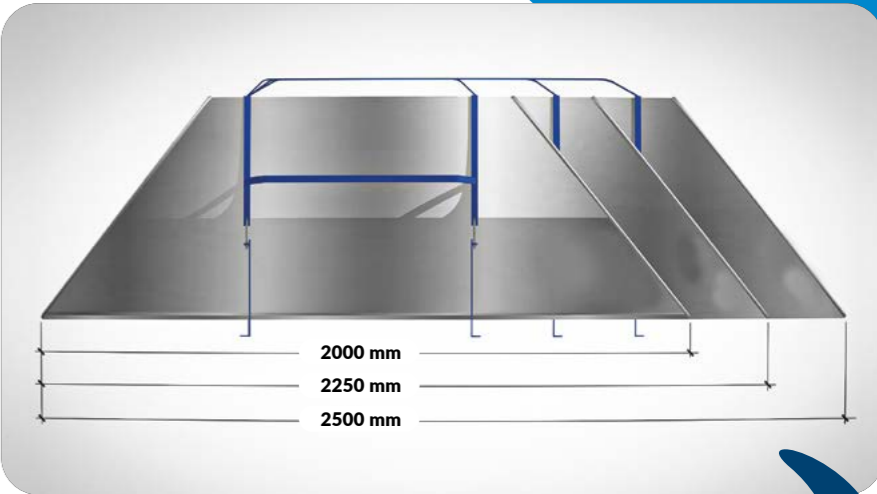

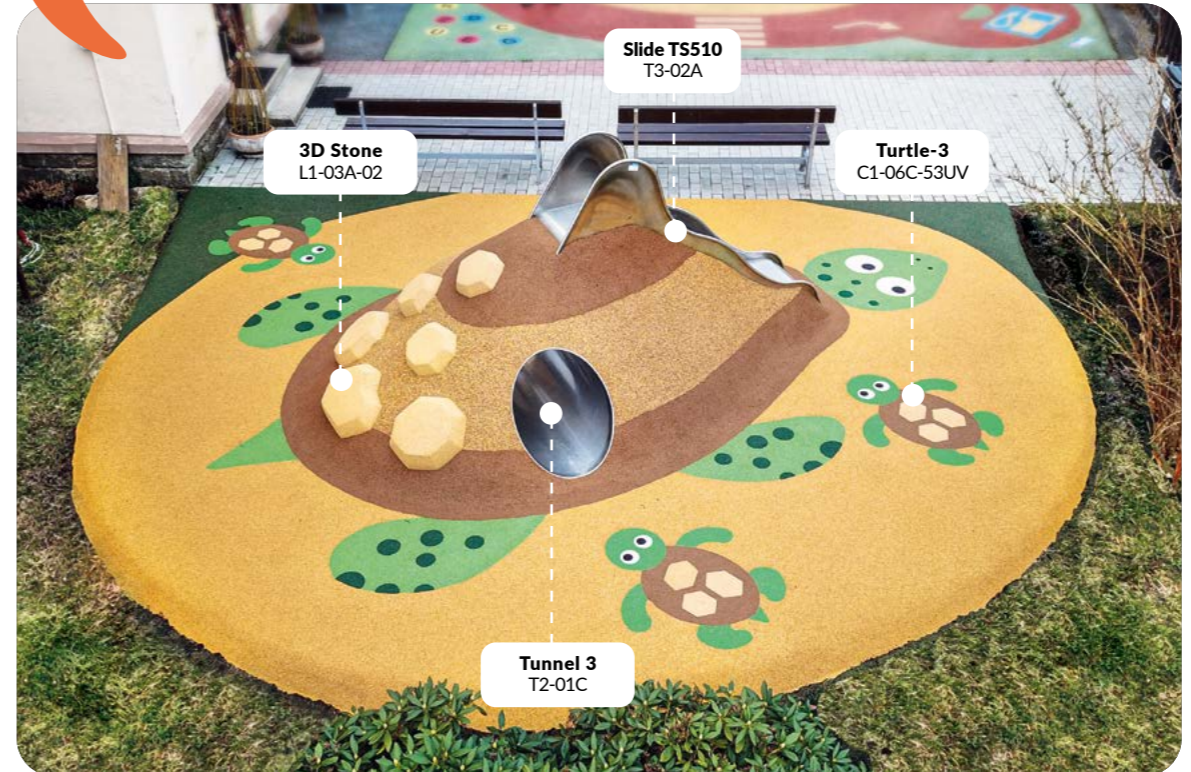

TÜV certification EN 1176-1.

CAN BE USED IN MANY GREAT WAYS! SIMPLE TO INSTALL.

MAKE YOUR PLAYGROUND MORE ATTRACTIVE, THAN OTHERS. WITH 4SOFT TUNNELS

The **DIAMETER** of these tunnels is 650 MM. **LENGTH OF THE BOTTOM PART.**
 Type 1, 2000mm
 Type 2, 2250mm
 Type 3, 2500mm.

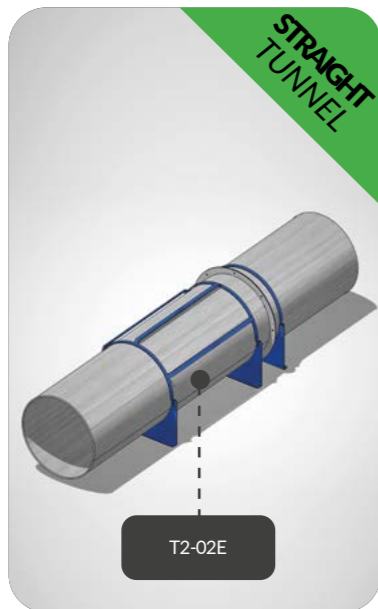

MODULAR BUILT-IN TUNNELS

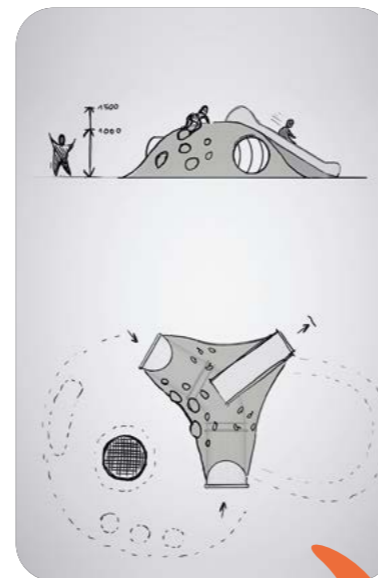

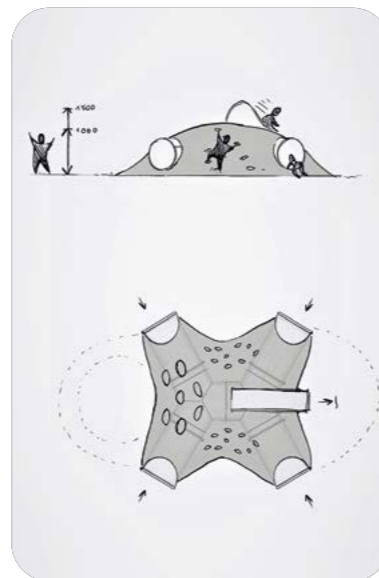

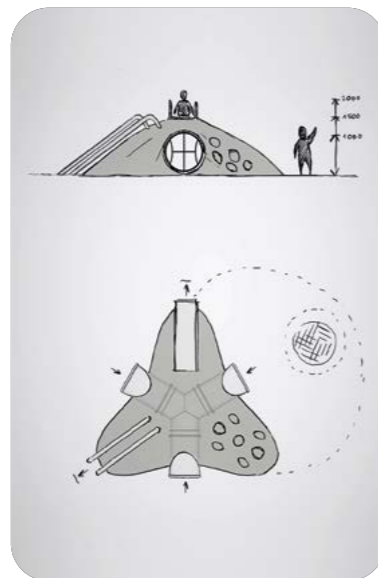

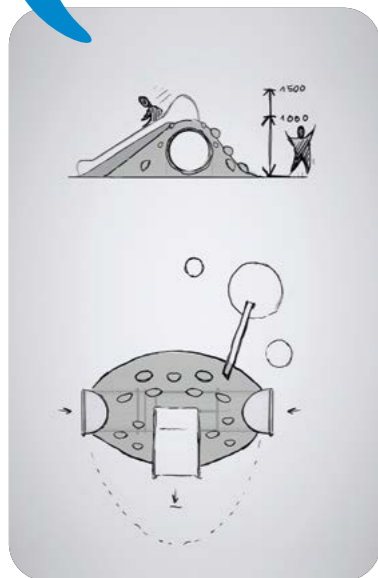

4soft has developed modular stainless steel tunnels, certified by TÜV authorities, to be built into a concrete hill and covered by an EPDM safety surface.

All types of the modular tunnel are available in short and long version.

You can find out more about modular tunnels at : epdm-graphics.com

DESIGNED FOR THE SPECIFIC SHAPE OF A 3D HILL.

DESIGNED FOR EXTRAORDINARY PLAYGROUNDS!

FUNPIPE SMART

Simple and heavy-duty play equipment.

Length - 2300-4800mm
Height of hill 1000 or 2500mm.

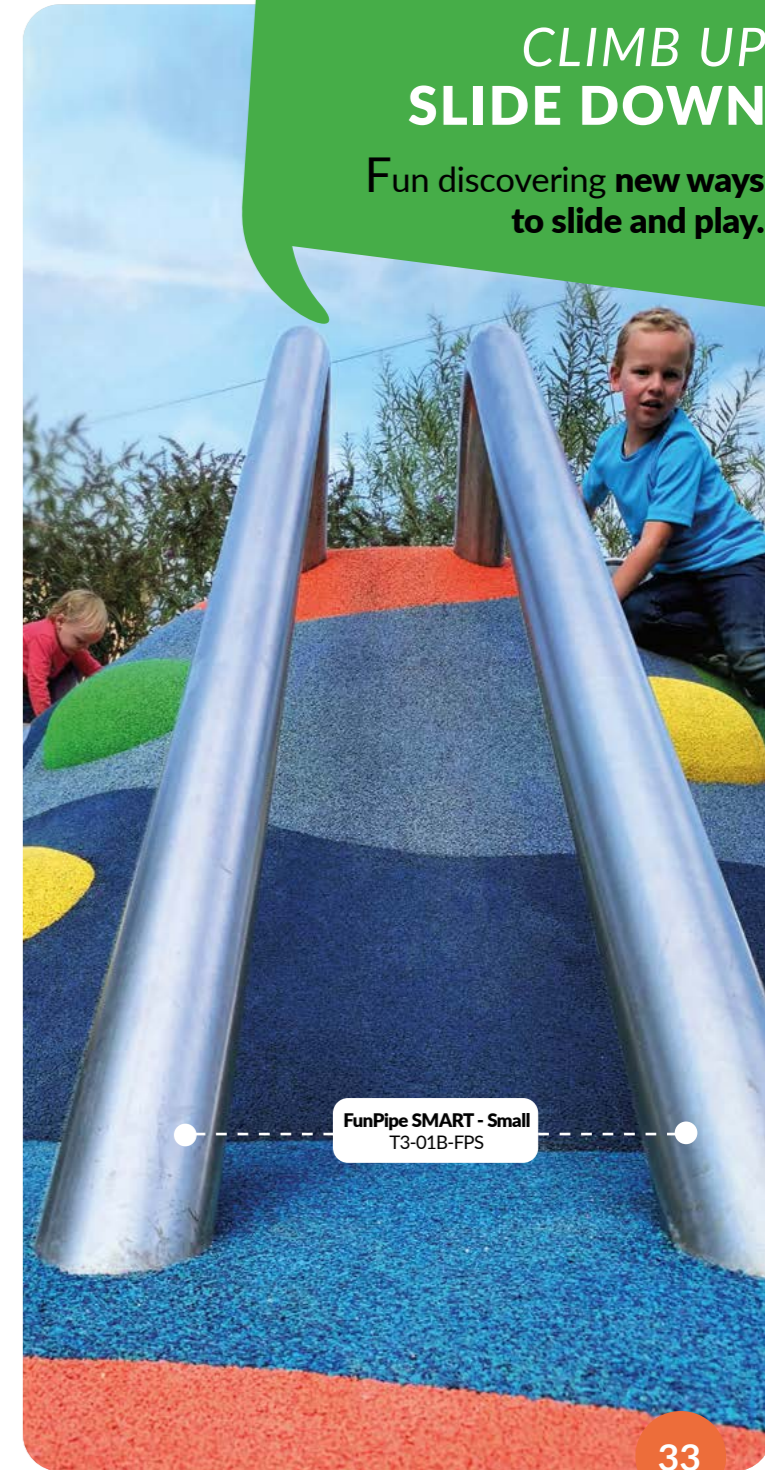

Certified by TÜV according to EN1176-1.

Superb when combined with tunnels, standard slide and 3D EPDM graphics.

DESIGNED FOR SLOPES

FIREMAN'S SLIDE :)

CLIMB UP SLIDE DOWN

Fun discovering new ways to slide and play.

FunPipe SMART - Small
T3-01B-FPS

3D EPDM PLAYHOUSE

Fun play element for playgrounds with an EPDM surface.

Consists of a stainless steel core, covered with a certified two-layer safety surface.

Can be used separately as a single element or as a part of a complete playground.

Certified according to EN 1176-1

Can be climbed over and used as a climbing wall. Its surface is fitted with grips enabling easier movement over it.

IT CAN BE MADE IN OTHER THEME-SPECIFIC VERSIONS

A small UNBREAKABLE window.

MINI ARENA

MINI Arena V5-02A

Hopscotch Small-boy F1-03A-00

MINI ARENA

Smart and economical solution.

Fun kindergarten playground.

Made for ball games and other exercises.

Perimeter and integrated goals multiply game use.

Boarding can be provided with markings to your requirements.

You can find out more about modular tunnels at: www.epdm-graphics.com

The mini-goal can also be used on its own, without boundaries.

THE INTEGRATED GOAL CAN ALSO BE USED AS A BENCH FOR SMALL PLAYERS.

B1-02A-07

Bird - footprint
B1-02A-07

Super combination with hills, slides and tunnels.

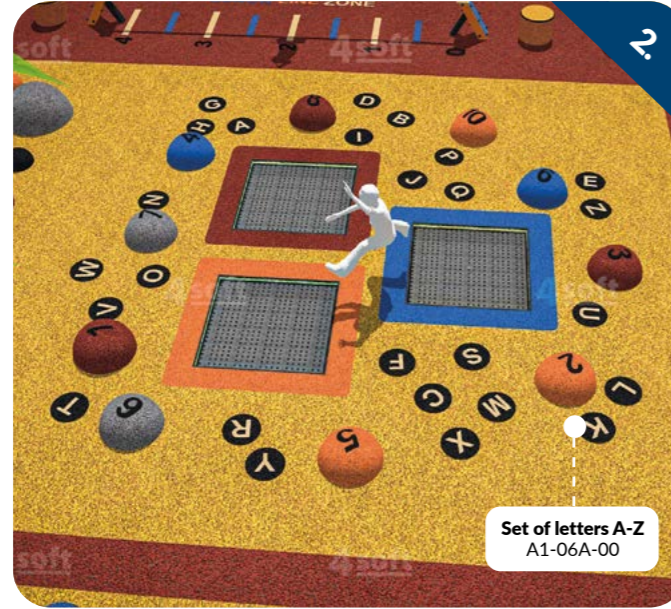

TRAMPOLINE PLAYGROUNDS

Pictures and 3D elements add interactivity...

TRAMPOLINE PLAYGROUND: INSPIRATION

These playgrounds encourage children to move and have fun.

EXAMPLES
& INSPIRATION

TRAMPOLINE
PLAYGROUNDS

TRAMPOLINES WITH 4SOFT GRAPHICS

Safe heavy-duty
equipment for outdoor and
indoor use.

Excellently compatible
with 4soft EPDM
graphic components.

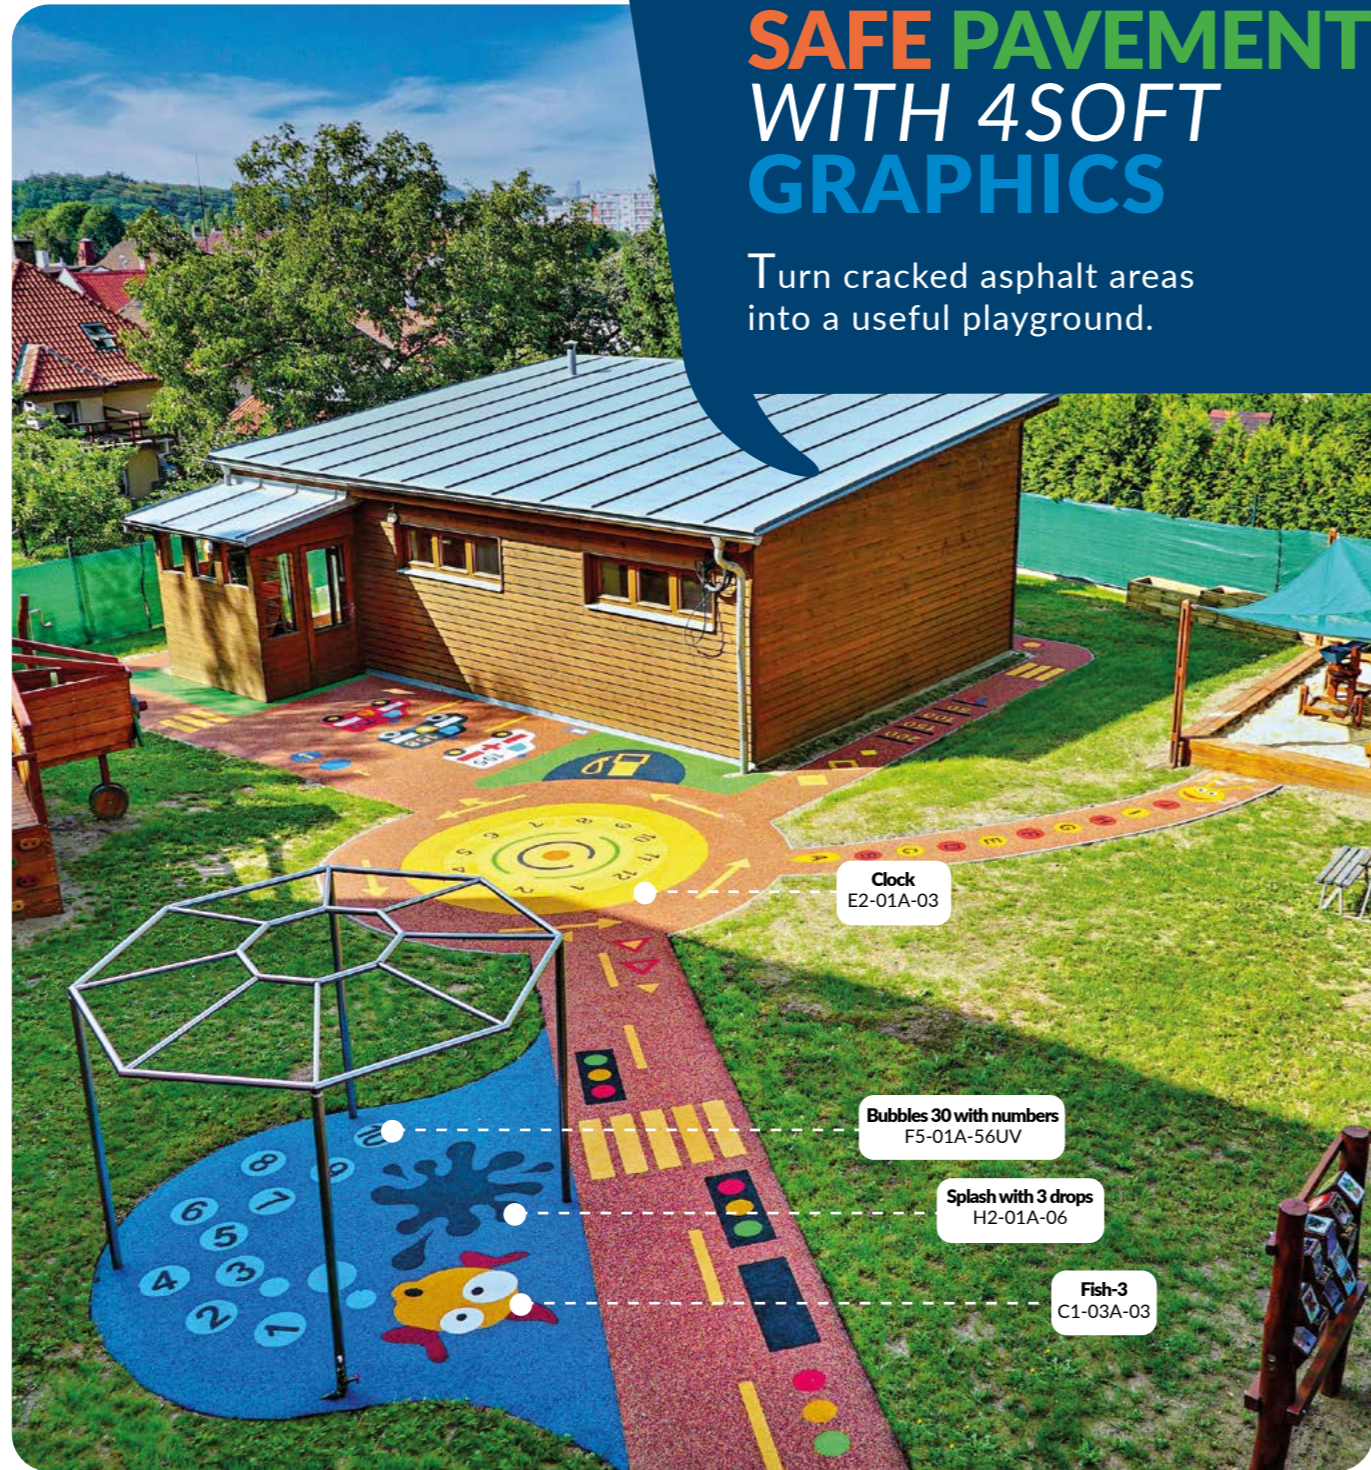

Fire hose nozzle
G3-02A-58UV

4soft hopscotches, geometric shapes, traffic signs, logos etc. Make the children happy.

Hydrant
G3-03A-09

SAFE PAVEMENT WITH 4SOFT GRAPHICS

Turn cracked asphalt areas into a useful playground.

Clock
E2-01A-03

Bubbles 30 with numbers
F5-01A-56UV

Splash with 3 drops
H2-01A-06

Fish-3
C1-03A-03

Jump leaves with numbers
F5-03A-00

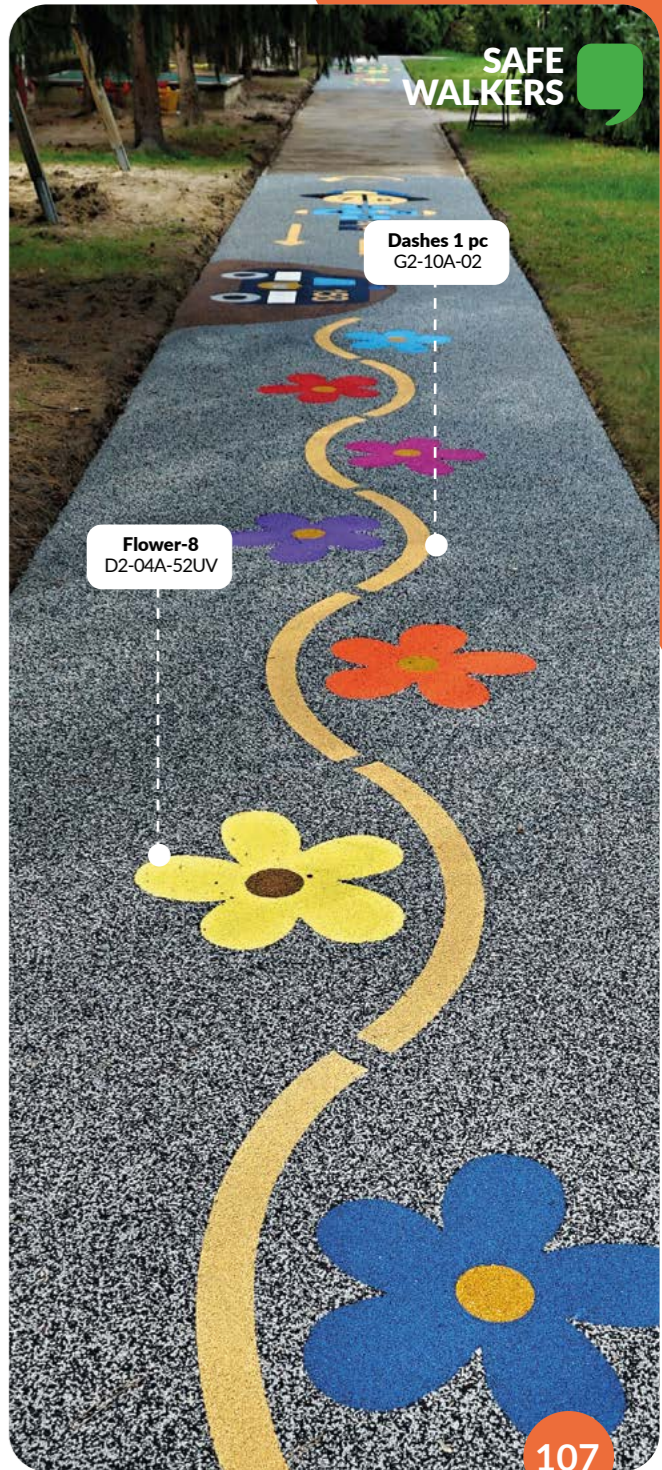

Lights SMALL - black
G2-01A-07

CHOOSE THE RIGHT GRAPHIC COMPONENTS & GLUE THEM

Fireman 3
F4-01C-20

Give an old garden path a new and interactive life!

Dashes 1 pc
G2-10A-02

Flower-8
D2-04A-52UV

SAFE WALKERS

Even terraces can become a play area!

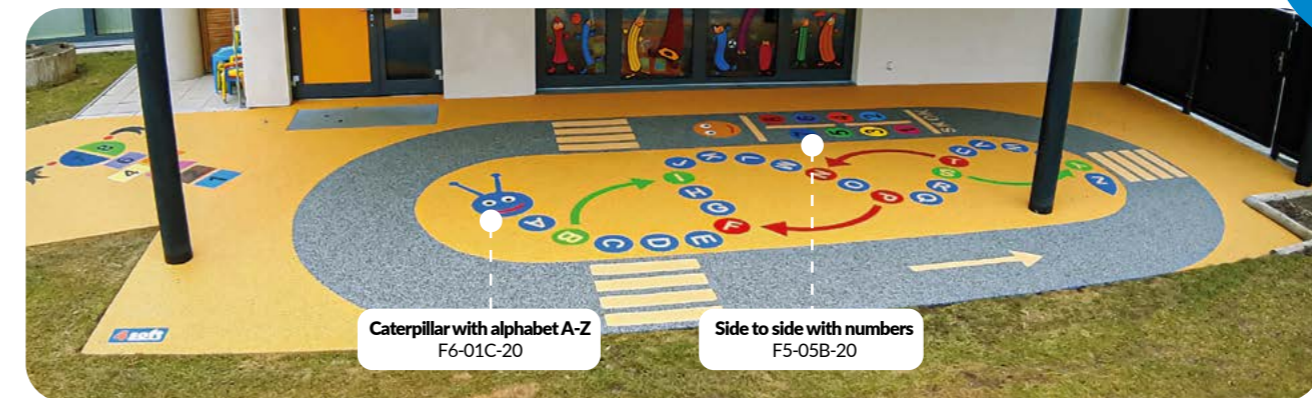

SAFETY TERRACES

EPDM terraces with 4soft graphics.

These places are usually forgotten when creating wet pour surfaces even though there is often an almost ready sub-base for direct installation.

A PLACE FOR LEARNING, SPORTS AND ENTERTAINMENT

FAST, EASY, EFFECTIVE
PERFECT SOLUTION

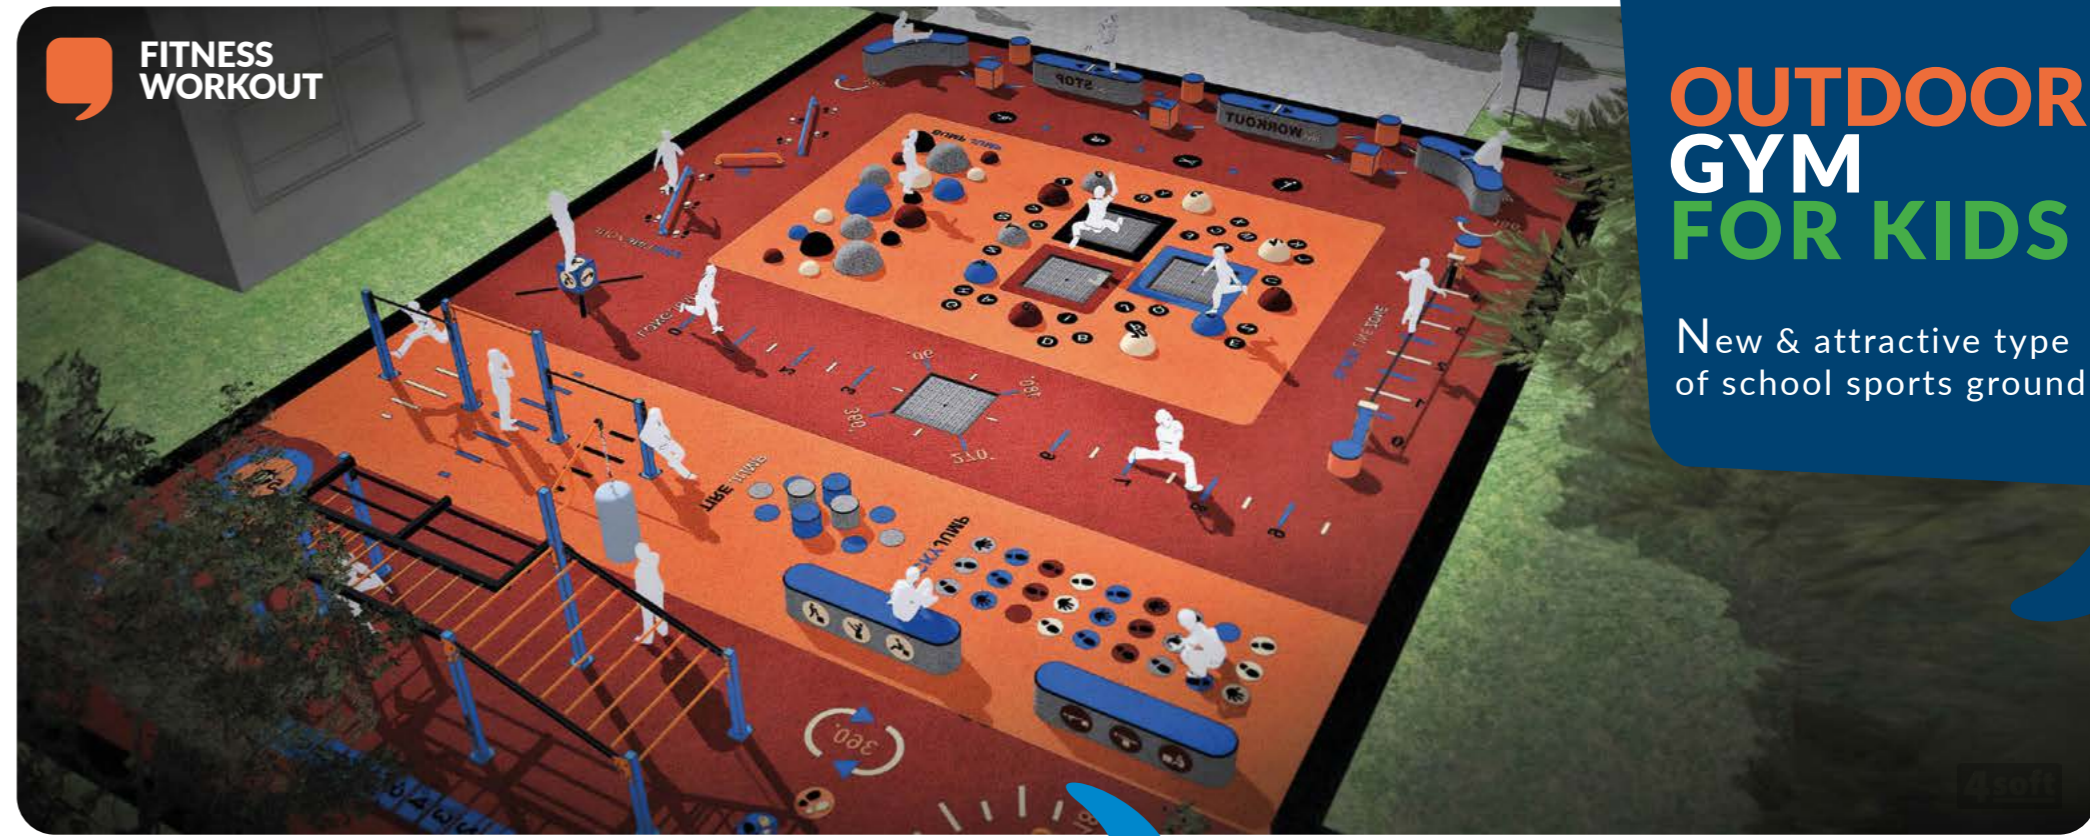

SAFE WORKOUT AREAS

With EPDM graphics combination with EPDM pictures and symbols creates a spectacular type of sports field.

Can be use for small sportsmen or big ones.

**ALL-YEAR
EXERCISE ON A SAFE
EPDM SURFACE
WITH 4SOFT GRAPHICS!**

OUTDOOR GYM FOR KIDS

New & attractive type of school sports ground

A space that motivates children to participate in movement games.

A great area for active breaks or leisure activities after school.

PITS MADE FROM EPDM
Shading is a welcome addition not only to our 3D sandboxes.

3D Ant hill
L3-01A-20

A more usable, fun and safe sandpit.

B2-05A-07

3D Ant hill
L3-01A-20

3D SANDBOX COMBINATIONS ARTIFICIAL & NATURAL SURFACE

Sandpit perimeter in the form of a soft mound becomes an attractive yet safe balancing track for running along.

At the same time it is a perfect perfect place for children to sit.

The inside of the sandpit is ideal for installing other play elements such as tunnels, slides, balancing elements, ball tracks, etc.

EPDM Seater
dia.40 cm, h.40 cm

4soft

3D SANDBOX: 4SOFT INSPIRATION

With our graphics, we turn ordinary surfaces into interesting places full of activities.

Way direction sign
G2-21A-57UV

Zebra lines - one
G2-09A-02

The 3D Seater can be good for playing with sand, sitting on or jumping over.

3D Turtle with tunnel
T1-07A-05

Jump mirror

4SOFT CAN HELP YOU DESIGN YOUR REQUIRED PLACE.

For more inspiration CHECK OUT www.epdm-graphics.com

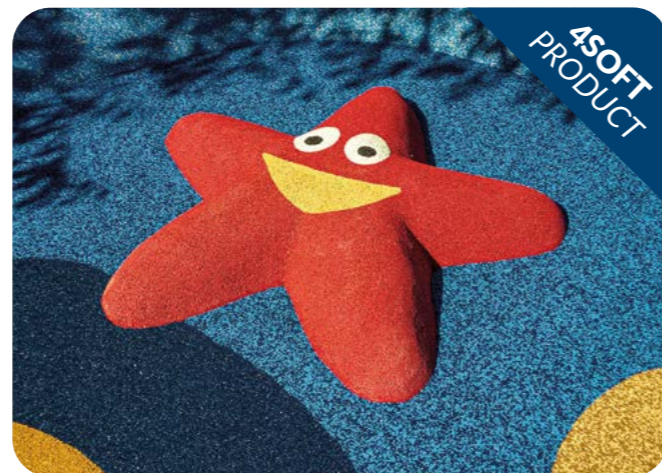

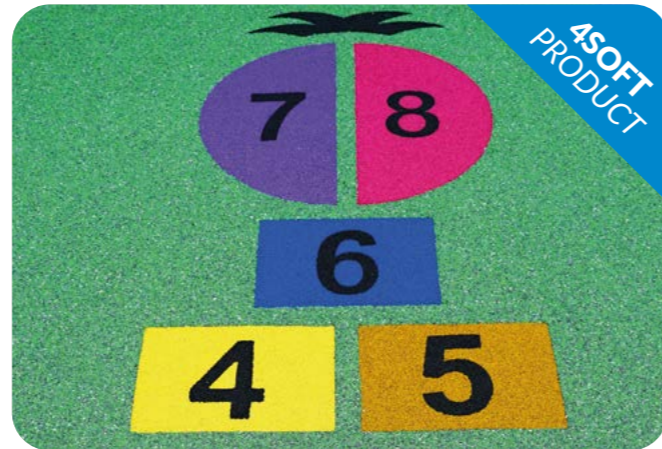

BEWARE OF LOW-QUALITY IMITATIONS!

These kinds of pictures are not Durable, the paint wears off after a year or two and the picture disappears.

Request only graphical features made from coloured EPDM granules, which retain their colour for the whole lifespan of the surface even in extremely stressed areas.

ATTENTION!
CERTAIN SUPPLIERS
MAKE GRAPHIC ELEMENTS
ONLY BY SIMPLY PAINTING
OR SPRAYING THE SURFACE.

PACKING OF THE GRAPHIC COMPONENTS

FAST EASY CHEAP PERFECT

We always try to find the most effective and cheapest solution for packing and transporting our products to customers.

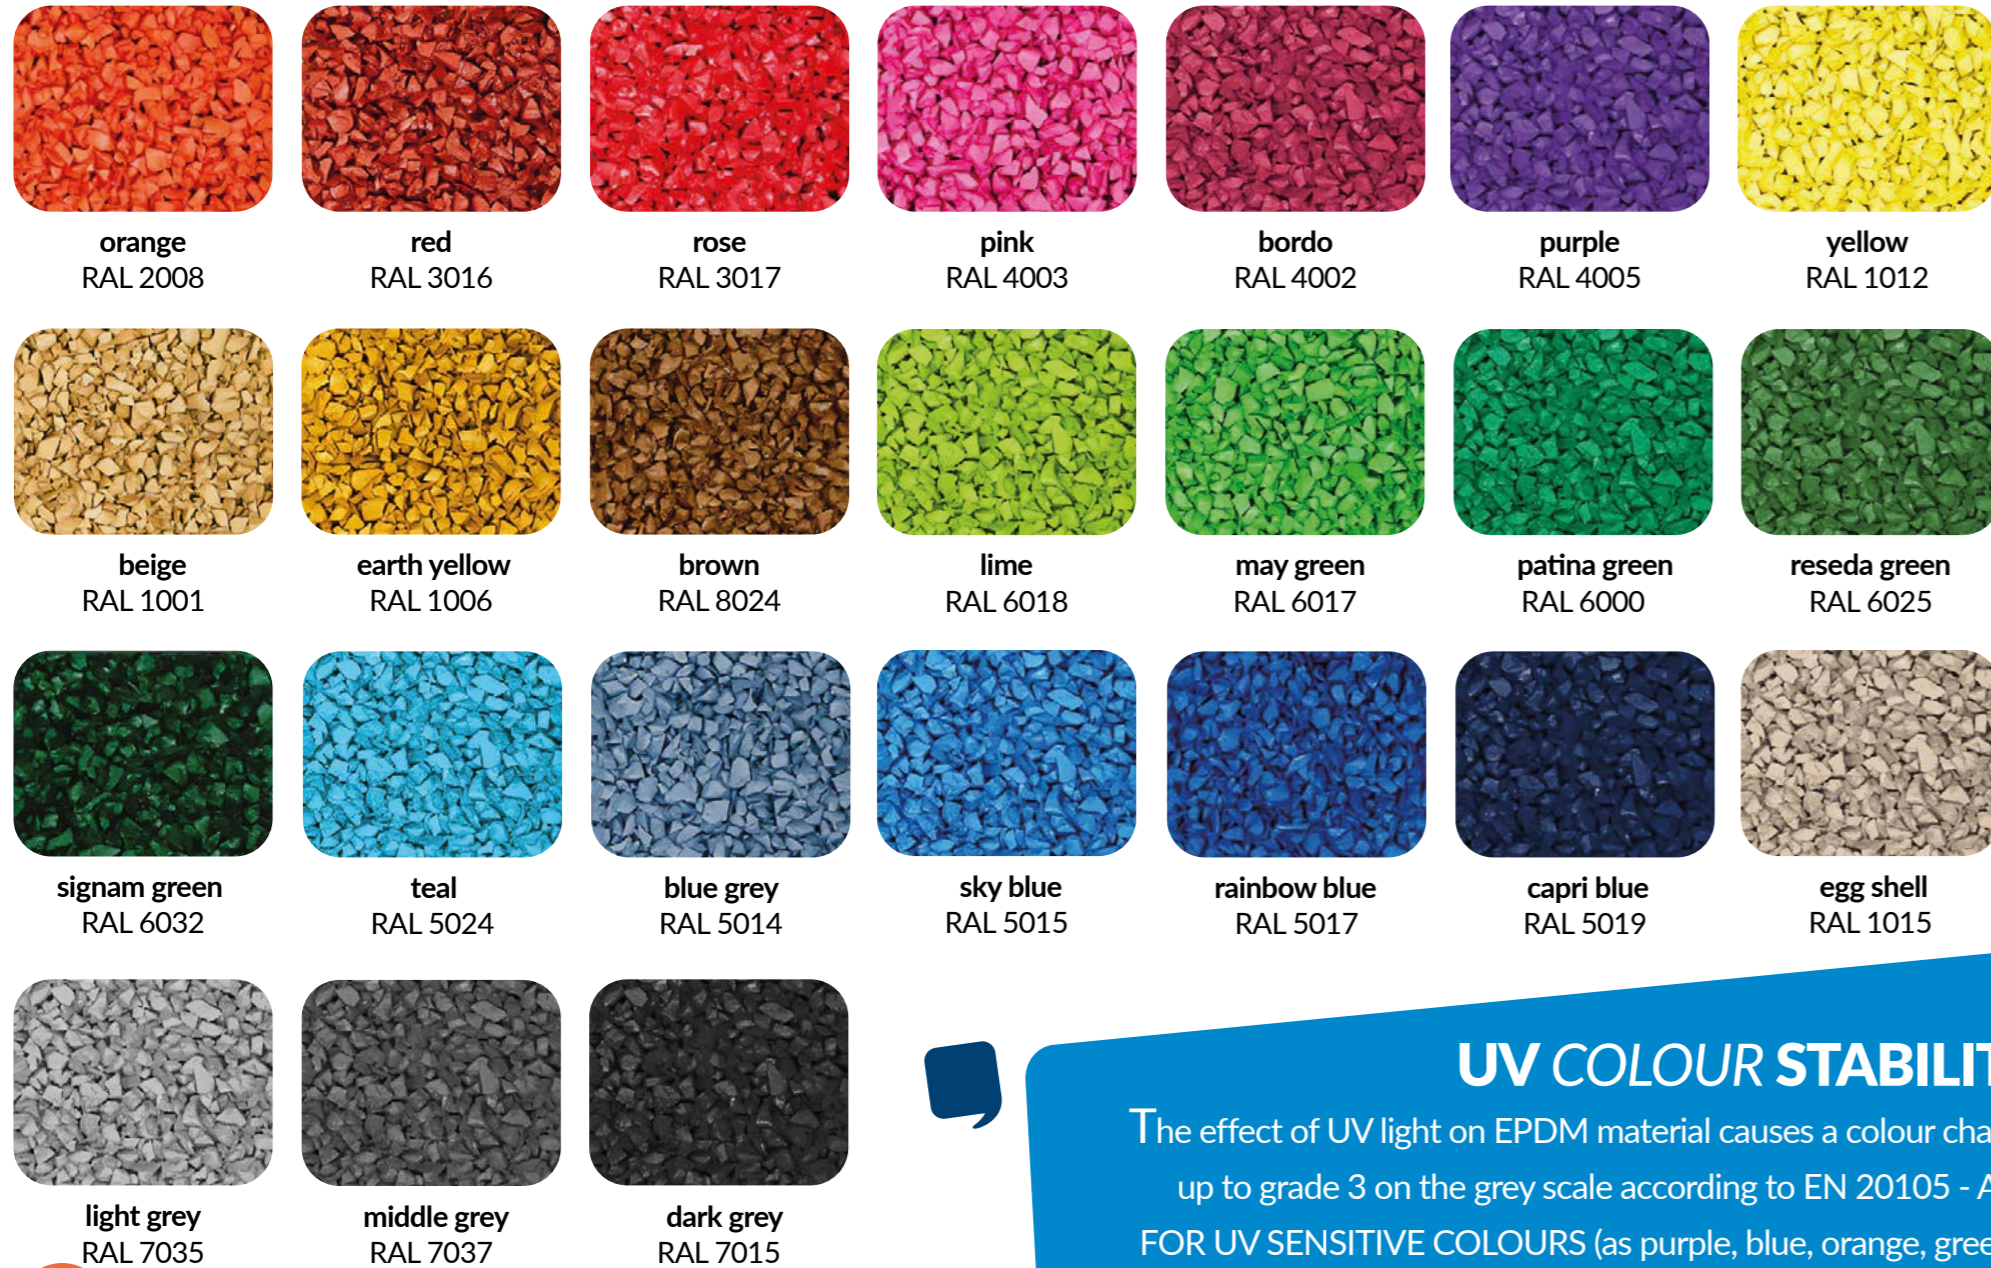

Each consignment is calculated separately according to its weight, dimensions and place of delivery.

It is always more effective to ship more components in one load.

BASIC COLOURS OF COMPONENTS:

SAMPLE COLOURS

CHOOSE THE RIGHT GRAPHIC COMPONENTS & GLUE THEM

UV COLOUR STABILITY

The effect of UV light on EPDM material causes a colour change up to grade 3 on the grey scale according to EN 20105 - A02.
FOR UV SENSITIVE COLOURS (as purple, blue, orange, green...) we use aliphatic UV lightstable binder!
